

Holland Park School NEU

What are we striking for?

10 reasons for our 10th day of industrial action
Tuesday 28th June

1. For transparent governance - not unaccountable processes

The future of our school is being decided with no accountability to the people at its heart: staff, students and parents

2. For open communication - not closed-door decisions

There has been no offer of meaningful negotiation between staff and governors

3. For a voice for stakeholders - not empty 'engagement'

The opinions of a majority have been disregarded

4. For a local MAT - big doesn't mean strong

The recommended Multi Academy Trust to take over our school is a big business with no ties with our community

5. For local control of resources - not asset stripping

Our resources should be focussed where they are needed, in our community

6. For assessment geared to student needs - not for fixing data

Student needs should come before exam factory performance

7. For behaviour managed by respect - not fear

Good behaviour is built on relationships, not threats

8. For students as active citizens - not bystanders

Learning not to accept without questioning

9. For professional standards and autonomy - teachers are not commodities

Trusting teachers to know what to teach

10. For the British Values we teach:

Democracy, the rule of law, individual liberty, mutual respect, tolerance

**Lobby for a local solution for Holland Park School.
Amend the Schools Bill to mandate meaningful consultation for
the future of our schools.**
